

Lawrence Berkeley National Laboratory's

Careers in Science and Technology Program Presents:
Excellence in Science, Technology and Mathematics Education
ESTME Week March 16-22 2003

Berkeley Lab conducts a year-round program promoting careers in science and technology, providing middle schools and high schools with knowledgeable speakers who will introduce their students to the wonders of the world of science and technology in the 21st century.

We encourage you to invite a member of the Berkeley Lab staff to give a presentation to students at your school to coincide with national ESTME week, sponsored by the U.S. Office of Science and Technology Policy. The goal is to both inspire students to consider careers in science, engineering, computer sciences, and technology, and to excite all students about the opportunities for discovery and exploration through math and science education

Visit the ESTME Week Web Site at: <http://www.ostp.gov/html/estme.html>

Request Form for an LBNL Staff Presentation

Teachers and administrators interested in having a speaker come to their school should submit a request by mailing or faxing this form to the Berkeley Lab's Center for Science and Engineering Education. Presenters will be prepared to deliver a 45-minute presentation that will include current science questions being answered in the earth, life and physical sciences at Berkeley Lab. They will discuss their own careers and career paths and provide the student with a stimulating hands-on science experience.

and click on "Careers in Science and Technology"

To mail in your request, send to
ESTME Week, CSEE One Cyclotron Rd MS 7-222, Berkeley, CA 94720
Or FAX Completed Form to: 510-486-4813

Teacher Name: _____ **School Name:** _____

E-mail Address: _____ **School Address:** _____

Phone Number: _____ **School Phone Number:** _____

Class Name or Subject: _____ **Grade Levels:** _____

Number of Class Periods Desired: _____

Careers of interest:

(e.g. science and technology, computer science, administration and management, etc.)

Preferred dates:

(March 17, 18, 19, 20, 21)

Preferred time of day: _____

You will be notified by email or phone call that your request has been received. Your request will be matched with an LBNL Staff Volunteer who will contact you to arrange for a their visit to your school.

Questions? Call: Center for Science and Engineering Education at 510-486-5511
